

It's Party Time!!!

Design the invitation for the Capulet's masquerade. You will be inventing all of the information for the invite (time, date, location, etc) while remaining true to the play. Be as creative as possible! You will be expected to use more materials than JUST paper for your final design, so think of interesting ways to solve this problem. To accompany your invitation, design a mask that you could wear at the ball. It should reflect your personality and interests.
